3. The source of the renewable energy is designed to be as follows (at least one line must be checked):
  - (a) If electrical, the renewable energy system at the above location is designed to produce energy from the following source:
    - \_\_\_\_\_ Solar technologies (other than photo-voltaic)
    - \_\_\_\_\_ Photo-voltaic technologies
    - \_\_\_\_\_ Wind energy
    - \_\_\_\_\_ Fuel cells
    - \_\_\_\_\_ Geothermal technologies
    - \_\_\_\_\_ Wave or tidal action
    - \_\_\_\_\_ Methane gas from landfills
    - \_\_\_\_\_ Resource recovery facility (DEP determination attached)
    - \_\_\_\_\_ Hydropower facility (DEP determination attached)
    - \_\_\_\_\_ Biomass facility involving biomass cultivated and harvested in a sustainable manner (DEP determination attached)
  - (b) If non-electrical, the renewable energy system at the above location is designed to produce energy from the following source:
    - \_\_\_\_\_ Solar thermal technologies
    - \_\_\_\_\_ Geothermal technologies
4. If the renewable energy system produces energy from a resource recovery, hydropower or biomass facility, we have attached to this application proof of a determination by the Commissioner of Environmental Protection that the facility meets the highest environmental standards and minimizes any impacts to the environment and local communities.
5. We have attached to this application a list identifying all applicable testing standards and manufacturer's instructions governing the design or installation of the renewable energy system and shall provide copies of any such standards and/or instructions to the enforcing agency if so required. We understand that any such documentation, if required, shall be deemed to be supplemental to this application, and that the application shall not be deemed to be complete unless and until they are submitted to the enforcing agency.

**Definitions – N.J.S.A. 54:4-3.113a**

1. As used in this act:

**“Renewable energy”** means: (1) electric energy produced from solar technologies, photovoltaic technologies, wind energy, fuel cells, geothermal technologies, wave or tidal action, methane gas from landfills, a resource recovery facility, a hydropower facility or a biomass facility, provided that the biomass is cultivated and harvested in a sustainable manner, and provided further that the Commissioner of Environmental Protection has determined that the resource recovery facility, hydropower facility or biomass facility, as appropriate, meets the highest environmental standards and minimizes any impacts to the environment and local communities; and (2) energy produced from solar thermal or geothermal technologies.

**“Renewable energy system”** means any equipment that is part of, or added to, a residential, commercial, industrial, or mixed use building as an accessory use, and that produces renewable energy onsite to provide all or a portion of the electrical, heating, cooling, or general energy needs of that building.

**“Local enforcing agency”** means the enforcing agency in any municipality provided for under the “State Uniform Construction Code Act,” P.L.1975, c.217 (C.52:27D-119 et seq.) and rules and regulations adopted pursuant thereto.

**Calculation - N.J.S.A. 54:4-3.113b**

2. Property that has been certified by a local enforcing agency as a renewable energy system shall be exempt from taxation under chapter 4 of Title 54 of the Revised Statutes. The owner of real property which is equipped with a certified renewable energy system may have exempted annually from the assessed valuation of the real property a sum equal to the assessed valuation of the real property with the renewable energy system included, minus the assessed valuation of the real property without the renewable energy system included.

**Right to Inspect - N.J.S.A. 54:4-3.113c**

3. The local enforcing agency may at any time inquire into the right of a claimant to the exemption, and for that purpose the local enforcing agency may require the filing of a new application or the submission of such proof as the local enforcing agency shall deem necessary to determine the right of the claimant to the continuance of the exemption.

**Effective Date of Exemption - N.J.S.A. 54:4-3.113d**

4. The exemption from taxation for the renewable energy system shall become effective for the tax year following the year in which certification has been granted and thereafter during its use primarily for such purposes.

**Appeal Information - N.J.S.A. 54:4-3.113f**

- 5a. Any person aggrieved by any action of the local enforcing agency may seek review before the board of appeals.
- b. Any person aggrieved by any action of the assessor may seek a review of such action at the county board of taxation or directly to the State Tax Court where the value in dispute is \$750,000 or more annually on or before April 1. The judgment of the county board of taxation may be further appealed to the Tax Court of New Jersey by filing a complaint with the Tax Court Management Office within 45 days from the date of the service of the judgment (date of mailing).
