## Benefits of having an Environmental Commission:

Hundreds of New Jersey  
Environmental Commissions (ECs)  
are dedicated volunteers appointed  
by the Mayor, working to protect and  
restore natural resources, ensuring  
healthy communities for the present  
and future.

**Our community motto is “Clean &  
Beautiful,” Being green helps keep  
it that way.**

# HISTORY of the EAC

The **Hamilton Township Environmental Advisory Commission** was established in 1973 under section 2-541 of the code of ordinances, Hamilton Township, New Jersey and in accordance with New Jersey Statute 40:56A-1 et seq.

The commission was established for the protection, development or use of natural resources, including water resources located within the territorial limits of the Township. All major development applications are reviewed for environmental concerns prior to Planning or Zoning Board review. The **Green Team** was established in 2018 and is a subcommittee of the EAC.

# YEARLY EVENTS

# GREEN TEAM

The mission of the **Hamilton Township Green Team** is to improve the environmental, economic and social quality of Hamilton Township by partnering with community, government, organizations and businesses to create a sustainable, clean and safe place to live and work for present and future generations.

## COMMUNITY CLEAN UP -

Every year the Environmental Advisory Commission surveys the township for trash and hosts a Stream/Community cleanup day in cooperation with the Department of Public Works. Several tons of trash and recyclables are collected by volunteers each year.

## MAKE A RAIN BARREL -

The Commission partners with The Watershed Institute to host a yearly rain barrel event. Residents learn and build their own rain barrels take home.
